

# Public Notice: Important Update on Water Service Line Inventory Program

We want to keep you in the loop about an essential program happening in our community. Your local water utility is currently working on developing a Service Line Inventory in accordance with the EPA's Lead and Copper Rule (LCR). We're excited to share some key details with you, making sure you're informed and assured about this initiative.

## Why the Service Line Inventory?

The Service Line Inventory is a federal requirement aimed at enhancing the safety and reliability of our water infrastructure. It's part of our commitment to ensuring the highest standards in water quality and compliance with national regulations.

## It's Not About Water Quality Issues:

We want to emphasize that this program has nothing to do with any suspected deficiencies in our water quality. We are committed to providing safe drinking water to our community. This is a proactive measure to ensure we have a comprehensive understanding of our water system.

## What to Expect:

Over the coming weeks, you may notice our team conducting surveys and assessments around the neighborhood. This is simply part of the process to compile accurate information about our water service lines.

## Your Cooperation Matters:

We appreciate your cooperation and understanding as we work towards completing this federally mandated program. Your involvement ensures the success of this initiative and contributes to the overall well-being of our community.

If you have any questions or concerns, feel free to reach out to our team, we're here to address them and provide additional information as needed. (443) 262-4602

**Thank you for being a valued part of our amazing community!**
